## 👤 PROFIL

From the moment I produced my first Todoapp, I knew I was hooked on the world of software development. Software development has never been just a job. It is a constant stimulating experience that pushes me every day to learn more and improve my skills. Below are projects I've completed this year that showcase my skills.

## 🧠 SKILLS

HTML, CSS, JavaScript, Mongodb, NodeJS, Angular, ReactJS, Redux, mySQL, Java/JEE, Laravel, Python

## 📁 PROJECTS

**éIBoutik / <https://elboutik.herokuapp.com/>**

*Full-Stack E-commerce Application Web*

Creation of a complete e-commerce website capable of managing and integrating secure payments, routes, noSQL database and OAuth. The goal was to use the project for future similar work and to adapt to the needs of my sister's company in terms of payment integration.

Technologies : React, Hooks, Express, Mongodb, NodeJS, Paypal et Heroku.

**CatCon / <https://molK95.github.io/friendContact/>**

*Contact Web App*

Created a simple React app tied to a fake JSONPlaceholder REST API where you can search for contacts. This app was prepared to teach other students and learn the basics of React.

Technologies : React, Redux, API REST

## 🌐 LANGUES

Arabe, Français, Anglais

## 🎓 EDUCATION

**Licence / Computer Sciences**

*Institut de l'informatique du Kef*

2020 – present | Kef, Tunisia

**Licence / Electrical Engineering**

*Institut Supérieur des Etudes Technologiques de Nabeul*

2014 – 2017 | Nabeul, Tunisia
